

Indian Scientific Expedition to the Southern Ocean

Prof. E.V.Ramasamy of the school has participated in the Indian Scientific Expedition to the Southern Ocean (ISESO 2020) and carried out his polar research on microplastics at the Antarctic waters. He is the first faculty member from MGU to take part in this expedition of 45 days of cruise in a research vessel crossing the world's toughest ocean with 'roaring 40s and screaming 60s' of the Southern Ocean. The findings of this research has been presented in SCAR 2022 International Conference.

Team of 40 Scientists from India participated in Southern Ocean Expedition (ISESO 2020)

Roaring 40s and screaming 60s 'of the Southern Ocean

Sampling Pictures in Arctic and Antarctic waters

Antarctic water covered with ice and huge ice berg
